

DEPARTMENT DIRECTIVE

To: All Fire Department Personnel

From: Fire Chief Karl Lieb

Subject: New Mask Mandate - KTL-D02-21

Date: July 29, 2021

Department members,

On guidance from the CDC, Mayor Mendenhall has issued a new Executive Order (No. 3 of 2021) requiring all Salt Lake City employees, regardless of vaccination status, to wear face masks while at their workplace. Effective immediately, all department members will be required to comply with this order. Masks will be required for all department members at their workplace and while in public if on City-business, including PR or community events. Additionally, SLCFD's Medical Control physicians have advised that all members resume masking during all EMS responses.

The goal is to reduce or halt the spread of the COVID delta variant, which has proven to be highly contagious and impacts even those who have been vaccinated, though to a lesser extent. With this in mind, I do ask for your vigilance in doing our part to help slow this spread. Practice physical distancing, frequent hand-washing and other hygiene protocols, clean workplace facilities, and exercise caution if you or a member of your family falls ill. Be safe and take care of yourself and your loved ones.

Thank you.
